

Journalism Practicum Diary # 9

Student's name: Julia Weng

Week of: July 20 - 24, 2020

Supervisor's name: JoAnn Goslin

Agency/Station/Company Office: Bloomberg Law

My two main objectives for this week were:

Finish up my editing meetings with the Enterprise editors and work with the graphic design team on a graphic for my enterprise article.

I achieved these objectives: Yes No Partially

Explain how you achieved or why you did not achieve your goals. Be specific.

Dan and I were able to wrap up our editing meetings with the Enterprise editors by the end of the week so that we had a solid idea on the amount of work and adjustments we had to do to fge the article out by my last day! We also met with the graphic design team to collaborate on the graphic and got a great first draft! We'll continue working with them next week to make adjustments and edits so it looks just as we imagine it!

Describe the work you personally performed and observed.

This week I wrote, "Video Service Companies Must Protect Data, Privacy Watchdogs Say," and "Hiscox Hack Suit Advances as Warden Grier Loses Dismissal Bid."

List the names and titles/positions of all the people you directly worked with this week.

This week I worked with my mentor, Dan Stoller, my editors John Hughes and Keith Perine, and my internship supervisor JoAnn Goslin.

Describe any new skills or concepts you learned or important observations (about yourself or others) you made this week.

Even though I'm not publishing a clip a day like I did earlier in my internship, and like my fellow interns are still doing, I am happy that I am working diligently on this enterprise piece, which I don't believe any other intern has written one yet.

Describe any significant experiences, achievements, "aha" moments and/ or roadblocks you had this week.

I had some trouble envisioning what graphic I wanted with the article, but Dan helped me out a lot!
